Revealed (t=30)

The heatmap displays a 12x12 grid of values. The color scale ranges from dark teal (low values) to bright yellow (high values). A prominent diagonal band of higher values (orange to red) runs from the bottom-left towards the top-right. Additionally, there are blocks of lower values (green to teal) in the top-right and bottom-right corners, and a few scattered low-value cells elsewhere.
